

# Purple Mash Computing Scheme

## 8 Computing Scheme Overview

### Long Term Planner

#### Long Term Planner

These example tracks for each year group provide a suggested route of units to follow with a total of **36 teaching hours**.

Each track includes a range of units offering full coverage of curriculum objectives as well as the three computing strands: Information Technology, Digital Literacy and Computer Science.

In most year groups there are also some **additional units** which can be taught in addition or as a replacement to those units in the suggested track, depending on the needs of your setting.

The units marked with an asterisk are now live with the remaining units coming in the Autumn term.

(A downloadable version of these tracks is available at the bottom of this page.)

#### Year 1

Information Technology Computer Science Digital Literacy

| Unit Title                                                                                  | Introduction to PM * | Creative Computing * | Data Explorers * | Creating & Following Instructions | Animated Stories | Coding | Technology Around Us | Making Beats |
|---------------------------------------------------------------------------------------------|----------------------|----------------------|------------------|-----------------------------------|------------------|--------|----------------------|--------------|
| Lessons                                                                                     | 3                    | 4                    | 6                | 3                                 | 6                | 6      | 4                    | 4            |
| Online Safety - Delivered throughout the year using 2BeSafe - Being Safe in a Digital World |                      |                      |                  |                                   |                  |        |                      |              |

## Year 2

Information Technology Computer Science Digital Literacy

| Unit Title                                                                                  | Route Explorers * | The Internet * | Creating Pictures * | Spreadsheets | Questioning | Coding | Presenting Ideas | Making Music |
|---------------------------------------------------------------------------------------------|-------------------|----------------|---------------------|--------------|-------------|--------|------------------|--------------|
| Lessons                                                                                     | 4                 | 4              | 5                   | 6            | 4           | 6      | 4                | 3            |
| Online Safety - Delivered throughout the year using 2BeSafe - Being Safe in a Digital World |                   |                |                     |              |             |        |                  |              |

|                  |                             |
|------------------|-----------------------------|
| Additional Units | Introduction to Purple Mash |
| Lessons          | 2                           |

**2simple**

## Year 3

Information Technology Computer Science Digital Literacy

| Unit Title                                                                                  | Email * | Route Planners * | Branching Databases * | Spreadsheets | Coding | Presentations (Microsoft, Apple & Google) | Touch Typing |
|---------------------------------------------------------------------------------------------|---------|------------------|-----------------------|--------------|--------|-------------------------------------------|--------------|
| Lessons                                                                                     | 6       | 5                | 4                     | 6            | 6      | 5                                         | 4            |
| Online Safety - Delivered throughout the year using 2BeSafe - Being Safe in a Digital World |         |                  |                       |              |        |                                           |              |

|                  |                             |           |
|------------------|-----------------------------|-----------|
| Additional Units | Introduction to Purple Mash | micro:bit |
| Lessons          | 2                           | 4         |

**2simple**

## Year 4

Information Technology Computer Science Digital Literacy

| Unit Title                                                                                  | Unpacking Hardware & Software * | Animation * | Logo * | Sound Stories | Effective Searching | Coding | Composing Beats | Introduction to AI |
|---------------------------------------------------------------------------------------------|---------------------------------|-------------|--------|---------------|---------------------|--------|-----------------|--------------------|
| Lessons                                                                                     | 4                               | 6           | 4      | 4             | 4                   | 6      | 4               | 4                  |
| Online Safety - Delivered throughout the year using 2BeSafe - Being Safe in a Digital World |                                 |             |        |               |                     |        |                 |                    |

|                  |                             |           |
|------------------|-----------------------------|-----------|
| Additional Units | Introduction to Purple Mash | micro:bit |
| Lessons          | 2                           | 4         |

**2simple**

## Year 5

Information Technology Computer Science Digital Literacy

| Unit Title                                                                                  | Quizzing * | Databases * | Game Creator * | Spreadsheets | Coding | Word Processing<br>(Microsoft, Apple & Google) | Concept<br>Maps |
|---------------------------------------------------------------------------------------------|------------|-------------|----------------|--------------|--------|------------------------------------------------|-----------------|
| Lessons                                                                                     | 5          | 4           | 5              | 6            | 6      | 6                                              | 4               |
| Online Safety - Delivered throughout the year using 2BeSafe - Being Safe In a Digital World |            |             |                |              |        |                                                |                 |

| Additional<br>Units | Introduction to<br>Purple Mash | Coding:<br>External Devices | micro:bit |
|---------------------|--------------------------------|-----------------------------|-----------|
| Lessons             | 2                              | 6                           | 4         |

## Unit Content Overview

### Unit Content Overview

This **content overview** offers additional information on all of the units in the scheme.

(A downloadable version of these documents is available at the bottom of this page.)

## Year 1

Information Technology Computer Science Digital Literacy

|                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                   |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Introduction to Purple Mash</b> 3 Lessons<br>Introduction to Purple Mash Introducing Purple Mash and the essential skills for the year 1 scheme units. <ul style="list-style-type: none"> <li>Logging in and out of Purple Mash</li> <li>Opening and using 2Dos</li> <li>Saving work in the Work area</li> </ul> | <b>Creative Computing</b> 4 Lessons<br>Developing mouse skills and ICT skills using the creative 2DIY tools in Purple Mash. <ul style="list-style-type: none"> <li>Making digital art</li> <li>Making and sharing jigsaws</li> <li>Making a drag and drop game</li> </ul> | <b>Data Explorers</b> 6 Lessons<br>Grouping and sorting objects. Relating this to organising and interpreting data. Using pictorial data on Purple Mash. <ul style="list-style-type: none"> <li>Sorting and grouping quizzes</li> <li>Understanding what data is</li> <li>Representing data electronically</li> </ul>         | <b>Creating &amp; Following Instructions</b> 3 Lessons<br>Understanding simple algorithms though unplugged activities before moving to sequencing activities on digital devices. <ul style="list-style-type: none"> <li>Following instructions</li> <li>Creating Instructions</li> <li>Understanding simple algorithms</li> </ul> |
| <b>Animated Stories</b> 6 Lessons<br>Creating and combining digital art and text to produce digital books using the 2Create a Story tool. <ul style="list-style-type: none"> <li>Creating digital art and text</li> <li>Adding animation to images</li> <li>Adding sound</li> </ul>                                 | <b>Coding</b> 6 Lessons<br>Introducing block coding using 2Code. <ul style="list-style-type: none"> <li>Using blocks to code</li> <li>Understanding objects, actions and events</li> <li>Planning and designing a program</li> </ul>                                      | <b>Technology Around Us</b> 4 Lessons<br>Defining and understanding what technology is. Relating this to school, home, outside and to its use in the wider world. <ul style="list-style-type: none"> <li>Understanding what technology is</li> <li>Recognising technology in the local environment and wider world</li> </ul> | <b>Making Beats</b> 4 Lessons<br>Introducing the concept of digital music. <ul style="list-style-type: none"> <li>Creating sounds using 2Explore</li> <li>Combining instruments using 2Beat</li> <li>Composing digital music</li> </ul>                                                                                           |

Online Safety: To be delivered throughout the year using 2BeSafe

2simple

## Year 2

Information Technology Computer Science Digital Literacy

|                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Introduction to Purple Mash</b> 2 Lessons<br>An optional introduction to Purple Mash and the essential skills for beginning the year 2 scheme units. Use with classes who haven't used Purple Mash before or who need a refresher in the basics.                                                 | <b>Route Explorers</b> 4 Lessons<br>Coding using 2Go. Writing simple instructions to move a screen turtle along routes. <ul style="list-style-type: none"> <li>Considering direction and distance</li> <li>Creating commands</li> <li>Building an algorithm</li> </ul>                                             | <b>The Internet</b> 4 Lessons<br>Understanding what the internet is. <ul style="list-style-type: none"> <li>Defining the World Wide Web</li> <li>Recognising browsers and websites</li> <li>Connecting to the internet</li> </ul>                                | <b>Creating Pictures</b> 5 Lessons<br>Using a digital art tool to create art in different traditional art styles. <ul style="list-style-type: none"> <li>Using 2Paint a Picture templates</li> <li>Exploring the features of each template</li> <li>Compiling an online art portfolio</li> <li>Comparing digital art effects to non digital effects</li> </ul> |
| <b>Spreadsheets</b> 6 Lessons<br>Introducing spreadsheets and the way they organise data using the 2Calculate tool. <ul style="list-style-type: none"> <li>Understanding cells and columns</li> <li>Inserting images with values</li> <li>Using totalling tools</li> <li>Creating graphs</li> </ul> | <b>Questioning</b> 4 Lessons<br>Investigating data, how it is collected and how it can be presented. <ul style="list-style-type: none"> <li>Asking the right question to collect or present data</li> <li>Keeping a tally</li> <li>Using 2Count to present the data</li> <li>Using a branching database</li> </ul> | <b>Coding</b> 6 Lessons<br>Developing coding skills using 2Code. <ul style="list-style-type: none"> <li>Understanding algorithms</li> <li>Introducing sequencing</li> <li>Coding interaction between objects</li> <li>Using timers</li> <li>Debugging</li> </ul> | <b>Presenting Ideas</b> 4 Lessons<br>Creating mind maps using 2Connect to organise and present ideas. <ul style="list-style-type: none"> <li>Using and making mind maps</li> <li>Using a mind map as a presentation tool</li> </ul>                                                                                                                            |
| <b>Making Music</b> 3 Lessons<br>Composing digital melodies using 2Sequence. <ul style="list-style-type: none"> <li>Understanding a digital music tool</li> <li>Relating the functions to musical terms</li> <li>Composing music digitally</li> </ul>                                               |                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                |

| <b>Introduction to Purple Mash</b> 2 Lessons<br>An optional introduction to Purple Mash and the essential skills for beginning the year 5 scheme units. Use with classes who haven't used Purple Mash before or who need a refresher in the basics.                                             | <b>Quizzing</b> 5 Lessons<br>Making effective quizzes using 2Quiz. Exploring types of questioning and effective presentation of a quiz. <ul style="list-style-type: none"> <li>Evaluating the features of a good quiz</li> <li>Choosing appropriate question types</li> <li>Making use of feedback and titles</li> <li>Testing and editing quizzes</li> </ul> | <b>Databases</b> 4 Lessons<br>Using table-based databases for collecting, presenting, searching and analysing data. <ul style="list-style-type: none"> <li>Understanding records and fields</li> <li>Creating a collaborative database</li> <li>Searching databases</li> <li>Analysing data</li> </ul> | <b>Game Creator</b> 5 Lessons<br>Designing and making a 3D maze adventure game using 2DIY3D. <ul style="list-style-type: none"> <li>Exploring the features of a good game</li> <li>Designing and making sprites and the game world</li> <li>Evaluating the playability of games</li> </ul> |
| <b>Spreadsheets</b> 6 Lessons<br>Working with data using spreadsheets in the 2Calculate tool. <ul style="list-style-type: none"> <li>Using formulae</li> <li>Exploring measurement conversions</li> <li>Carrying out numerical investigations</li> <li>Creating computational models</li> </ul> | <b>Coding</b> 6 Lessons<br>Developing coding skills using 2Code. <ul style="list-style-type: none"> <li>Coding efficiently by refining code</li> <li>Simulating a physical system</li> <li>Exploring decomposition and abstraction</li> <li>Using functions and variables</li> </ul>                                                                          | <b>Word Processing</b> 6 Lessons<br>Using industry standard software to create documents. <ul style="list-style-type: none"> <li>Creating documents</li> <li>Using images</li> <li>Entering and editing text</li> <li>Using tables and templates</li> </ul>                                            | <b>Concept Maps</b> 4 Lessons<br>Using and creating concept maps using 2Connect. <ul style="list-style-type: none"> <li>Creating concept maps</li> <li>Presenting from a concept map</li> <li>Making collaborative concept maps</li> </ul>                                                 |
| <b>Coding External Devices</b> 6 Lessons<br>Using the Purple Chip app on a tablet or phone device alongside Purple Mash. <ul style="list-style-type: none"> <li>Using device movement</li> <li>Exploring text functions</li> <li>Coding interaction with the environment</li> </ul>             | <b>micro:bit</b> 4 Lessons<br>Coding using a micro:bit as an external device. Includes an emulator for schools without micro:bits. <ul style="list-style-type: none"> <li>Exploring sensor inputs and the accelerometer</li> <li>Using selection, variables, inputs and outputs</li> <li>Coding for the micro:bit pins</li> </ul>                             |                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                            |

Online Safety: To be delivered throughout the year using 2BeSafe

## Year 6

Information Technology Computer Science Digital Literacy

|                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Introduction to Purple Mash</b> 2 Lessons<br>An optional introduction to Purple Mash and the essential skills for beginning the year 6 scheme units. Use with classes who haven't used Purple Mash before or who need a refresher in the basics.                                                                                                                         | <b>Graphing</b> 4 Lessons<br>Understanding the benefits of creating common graph types digitally. Using appropriate features to present data in the best possible way. <ul style="list-style-type: none"> <li>Creating a range of graph types</li> <li>Incorporating multiple datasets</li> <li>Using graphs to solve a problem</li> <li>Exporting and importing files</li> </ul> | <b>Blogging</b> 4 Lessons<br>Understanding how blogs and their features can effectively engage an audience. <ul style="list-style-type: none"> <li>Planning the theme, content and structure</li> <li>Writing, editing and publishing a blog post</li> <li>Understanding blog moderation</li> <li>Reviewing and commenting on blog posts</li> </ul>                                  | <b>Data Detectives</b> 4 Lessons<br>Using the Data Detectives tool to work with large datasets to analyse complex data and answer questions. <ul style="list-style-type: none"> <li>Filtering and sorting data</li> <li>Grouping data</li> <li>Linking tables</li> </ul> |
| <b>Networks</b> 4 Lessons<br>Learning what networks do and how they connect devices. Considering safety aspects of networks and collaboration. <ul style="list-style-type: none"> <li>Identifying examples of networks</li> <li>Recognising types of networks</li> <li>Understanding internet services</li> <li>Discussing positive and negative use of networks</li> </ul> | <b>Coding</b> 6 Lessons<br>Developing coding skills using 2Code. <ul style="list-style-type: none"> <li>Using functions</li> <li>Understanding flowcharts and control simulations</li> <li>Coding for user input</li> </ul>                                                                                                                                                       | <b>Introduction to Python</b> 4 Lessons<br>Introducing text-based Python coding using the Python in Pieces platform. Python in Pieces translates between block-code and Python. <ul style="list-style-type: none"> <li>Comparing block and text code views</li> <li>Coding for text output</li> <li>Working with different datatypes</li> <li>Coding repetition in Python</li> </ul> | <b>Spreadsheets</b> 5 Lessons<br>Using industry standard software to work with spreadsheets. <ul style="list-style-type: none"> <li>Performing calculations</li> <li>Entering and using formulae</li> <li>Presenting data</li> <li>Solving real life problems</li> </ul> |
| <b>3D Modelling</b> 5 Lessons<br>Exploring computer aided design in 3D using the 2Design and Make tool. <ul style="list-style-type: none"> <li>Working with viewpoints of 3D objects</li> <li>Adding and editing points on a model</li> <li>Designing for a purpose</li> </ul>                                                                                              | <b>Binary</b> 5 Lessons<br>Understanding binary as a number system and its purpose and application in computing. <ul style="list-style-type: none"> <li>Examining how binary represents data in digital systems.</li> <li>Counting in binary</li> <li>Converting from decimal to binary</li> <li>Exploring binary in relation to game states</li> </ul>                           | <b>micro:bit</b> 5 Lessons<br>Coding using a micro:bit as an external device. <ul style="list-style-type: none"> <li>Using the micro:bit as a data logger</li> <li>Measuring, recording and analysing environmental data</li> <li>Collecting data and exporting to graphical software</li> </ul>                                                                                     |                                                                                                                                                                                                                                                                          |

Online Safety: To be delivered throughout the year using 2BeSafe

- [Unit Content Overview](#)

## Excel Overview Document

### Excel Overview Document

This **overview spreadsheet** contains all the key information for each unit. It includes:

- Lesson title, aims and success criteria
- Key Vocabulary by lesson
- Overview of tools used
- National Curriculum links
- Key links to 'Education in a Connected World'
- Key links to KCSIE 4Cs (Content, Contact, Conduct, Commerce)

- [Overview Spreadsheet](#)

## Mixed Aged Planning

### Mixed Aged Planning

This document has been designed to support schools with mixed age classes consisting of:

- Years 1 and 2
- Years 3 and 4
- Years 5 and 6

It is a suggested plan for schools to follow based on 36 hours of teaching a year, offering a wide range of units with the full breadth of National Curriculum objectives.

- [Mixed Age Overview - 2025](#)

We are always here to help if you would like assistance with mixed age planning, especially if your mixes are different from the above. If you would like help in amending this plan to meet the needs of your school, please contact the education team at 2Simple by emailing [support@2simple.com](mailto:support@2simple.com).

## Online Safety

## Online Safety

It is recommended that Online Safety is delivered over the course of the year using **2BeSafe - Being Safe in a Digital World**. This is an **Online Safety Scheme** created by 2Simple. These sessions can be delivered outside of Computing lessons as part of PSHE and/or RSE lessons, or wherever timetable flexibility may allow.

- **2BeSafe** covers many of the requirements of the Digital Literacy strand of the Computing curriculum.
- **2BeSafe** meets the guidance set out within the Department for Education's - [Teaching Online Safety in Schools Guidance](#) and Education for a Connected World.
- [The Education for a Connected World framework](#) outlines eight key areas which seek to equip children and young people for digital life and the digital world.
- **2BeSafe** offers a comprehensive coverage of these requirements for primary schools starting from Reception up to Year 6.
- For each objective within the framework, we have produced a **15-to-20-minute session** containing activities to promote discussion, greater thinking and deeper reflection in order to raise the profile of the importance of staying safe online.
- All sessions contain a teaching **PowerPoint and easily accessible resources** in order to save teachers' time.
- Sessions **do not** require children to take out **devices**; activities requiring devices are optional.

Find out more and view the **2BeSafe Online Safety Scheme** by clicking the button below.

- [2BeSafe - Being Safe in a Digital World](#)

## Adaptation and SEND

### Adaptation and SEND

Where appropriate, guidance has been given on how to simplify tasks within lessons or challenge those who are ready for more stretching tasks. We identify SEND as a broad term which can include physical, sensory, cognitive, behaviour and learning access needs, of which some children with SEND needs may be functioning at above expected national levels.

Within the scheme, it is expected that most lessons are differentiated by outcome and by the support and/or scaffolding children are given to meet their individual needs. For each unit of work, there are three example assessment statements relating to pupil outcomes: Emerging; Expected and Exceeding. The emerging level outcomes would include children in the lowest 20% of attainment in this area. For more able children there are extension tasks provided in many of the lessons.

We haven't provided SEND specific guidance except on the occasion where ability in other

subjects might make accessing the computing content more difficult for some. For example, when mathematical understanding overlaps with work done on spreadsheets. We aim to ensure that most resources are accessible for most children e.g. by using voice recording in addition to text in quiz resources and by consideration of colour palette and illustrations.

## Links Across the Curriculum

### Links Across the Curriculum

Within the scheme, there are many opportunities to incorporate the computational skills into other subjects. Resources could be adapted or created to match your topics. Below are some suggestions.

#### Units that link to the Maths curriculum:

- Year 1 - Data Explorers
- Year 2 - Questioning
- Year 3 - Branching Databases
- Year 5 - Databases
- Year 6 - Graphing
- Year 2, 3 and 5 - Spreadsheets
- Year 6 - Spreadsheets

#### Units that could be part of English lessons:

- Year 2 - Presenting Ideas
- Year 4 - Sound Stories
- Year 5 - Word Processing

#### Units that could easily be topic linked; resources will need to be adapted to have a topic theme:

- Any of the data handling units suggested in the Maths section.
- Year 1 - Animated Stories
- Year 2 - Creating Pictures
- Year 2 - Presenting Ideas
- Year 3 - Presentations
- Year 4 - Animation
- Year 4 - Sound Stories
- Year 5 - Quizzing
- Year 5 - Game Creator
- Year 5 - Word Processing
- Year 5 - Concept Maps
- Year 6 - Blogging

**Music topics could be incorporated into music lessons with a modelling of musical skills on both instruments and using the computer:**

- Year 1 - Making Beats
- Year 2 - Making Music
- Year 4 - Composing Beats

**Typing** could be covered during a regular 10-minute morning session over a term rather than during dedicated computing lessons (Year 3 Touch Typing). This is facilitated by using the [Typing Across the Year resources](#) (found in the Computing area).

## Cultural Capital

### Cultural Capital

*“As part of making the judgement about the quality of education, inspectors will consider the extent to which schools are equipping pupils with the knowledge and cultural capital they need to succeed in life. Our understanding of ‘knowledge and cultural capital’ is derived from the following wording in the national curriculum: ‘It is the essential knowledge that pupils need to be educated citizens, introducing them to the best that has been thought and said and helping to engender an appreciation of human creativity and achievement.’”*

(Ofsted’s definition of cultural capital – Extract: Ofsted School Inspection Handbook 2019)

When we consider cultural capital in relation to a child starting their journey of learning in a school setting, it’s the idea that they all have started school with their own experiences and knowledge. These experiences and knowledge will link to their culture and wider family. Pierre Bourdieu, a French sociologist, developed the concept of cultural capital in the 1960s, arguing heavily that children’s attainment in schools was not defined by solely economic factors. Various research indicates a strong correlation between the value placed on children’s cultures and the progress they make in formal education settings.

It’s important to note that cultural capital shouldn’t be defined as just academic achievement, cultural capital should be thought of enabling a child to grow into educated citizens who have had broad experiences and knowledge with a strong appreciation of human achievement and creativity.

Cultural capital is one of the key things that a child will utilise throughout their life in order to become successful in society.

### How Schools Play A Part

Schools have a duty to ensure that their children are given a rich educational diet that supports the notion of Cultural Capital.

Schools should consider several key things:

- **Culturally relevant pedagogy:** Embracing all their children's cultural identities, personal experiences, knowledge, and heritage in order to make learning more relevant to them and in thus doing so, giving rise to greater engagement and subsequently greater achievement.
- **Culturally responsive teaching:** Using a range of teaching strategies that supports children's personal experiences and cultural identities.
- **Provision:** Providing broad and rich experiences that their learners may not have experienced before, including the immersion of different cultures, traditions and approaches to everyday activities.
- **Knowledge:** Giving children a diet of knowledge that supports them in becoming educated citizens.

## Purple Mash Computing Scheme of Work and Cultural Capital

We understand the importance of supporting opportunities for all children. Our future workforce should reflect a broad cross section of society, including but not limited to: age, gender, race, religious beliefs, cognitive and physical differences. If we consider computing and the potential career opportunities and pathways this may lead to, it's vital that a broad workforce is in place, particularly when decisions on design and implementation of systems is required to limit bias. Computing should be integrated within different cultures and experiences of people, for example, farmers using technology to maximise yield of crops.

The Purple Mash Computing Scheme of Work is a comprehensive set of resources aligned to the National Curricula for Computing, Technology and Digital Competence. The Scheme of Work is intended to facilitate teachers in achieving the very best outcomes for all children. It exposes children to a wide variety of digital tools, technological skills and innovations to enable them to become informed members of the digital community.

It contains everything that is needed to deliver inspiring and engaging lessons whilst allowing for the flexibility to meet individual school needs. The scheme provides the scaffolding for teaching key skills alongside the flexibility to change the context to meet needs of individuals. For example, relating graphing to the local environment; tailoring blogging to individual cultures, experiences and interests. Lessons are delivered from lesson plans with accompanying slide shows. We have included additional units that go beyond the expectations of National Curricula, whilst also providing 'Catch-Up' units to close gaps in learning. The activity ideas for Early Years (Reception) show opportunities for using Mini Mash or Purple Mash as part of the Early Years classroom to support children in working towards early learning goals.

The scheme's flexibility is not just limited to adaptation of teaching approaches or contexts used within lessons. Functionality within the delivery platform allows for a range of devices to be used to access and deliver content. Additionally, features such as collaboratively enabled tools, means that children don't always require individual devices.

Supplementary resources such as Code Club and Digital Leaders give rise to opportunities for broadening horizons for all children regardless of their starting point. They support experience of leadership, developing skills and give exposure to new experiences and responsibilities such as leadership.
